

Brilliant Beginning:

We will start our topic with a visit from a special guest from the past! They are going to set Year 2 an exciting challenge that everyone can take part in!

English

Using our exciting new text the children will be having a go at two new types of writing. To start with we will look carefully at the story to help us write an invention narrative of our own. We will then look at some of the inventions in our text and have a go at writing an explanation of how one of them works.

Maths

This term we will be recapping our understanding of the four operations and fractions. As the term progresses, we will be learning about Time, Capacity and Measures and Position and Direction. We will be using our understanding to solve real life problems.

Fantastic Finale:

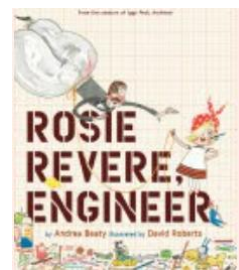

We will design and build our very own moving toy — using levers, axles and wheels, or even a pneumatic system!
This amazing invention will go right at the end of the timeline, showing what toys look like today.

DT

This term we will be toy developers and engineers, designing and building a moving toy that fulfils the challenge set for us. We will be exploring and using mechanisms (for example, levers, sliders, wheels and axles), in our products.

Moving Toys

Otter & Fox Term 6

PSHE

Using our PSHE scheme, Jigsaw we will be thinking about how we and our bodies change as we get older using the correct names for parts of the body. We will also explore life cycles of all animals to show how everything changes as it gets older.

Computing

In Computing this term, we will be exploring how music can make you think and feel. We will be using digital tools to create different rhythms and tunes.

PE

In PE this term, we will be taking part in athletics and target games. We will look to improve our running, jumping and balance. We will also work on our throwing skills and learn how to effectively attack and defend in sport.

RE

In RE this term, we will be looking at the key question, does taking part in Baisakhi help Sikh children feel a sense of belonging? We will use this question to deepen our understanding of the Sikhi religion.

Music

In Music this term, we will be working on improving all the skills we have learned this year to put on a celebration assembly at the end of term.
