

## Brilliant Beginning:

Who has a pet like this?

### Understanding the world

We will be making observations of different animals and looking at the environments they live in. Our trip to the zoo will introduce us to some familiar as well as some new animals for us to find out about. We will explore the similarities and differences between habitats too.

### Literacy

In reading, we continue within phase 4, learning to read more words ending in -s, -es, -ing and -ed. There will be no new tricky words to learn to read but we will be learning to spell them. In writing, we will be developing our sentences with greater independence, remembering our capital letters, finger spaces and full stops.

### Mathematics

This term, we will continue to explore number patterns within 10 and consolidate our knowledge of our number bonds to 5. We will use our sense of number to help us solve problems and begin to record our findings using the symbols +, - and =.

## Fantastic Finale:

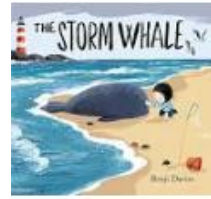

Class assembly: share amazing creatures' information and artwork

### Expressive arts and design

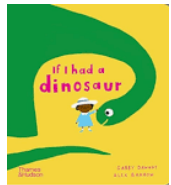

We will explore a range of materials including paint, collage and fabrics to create animal artwork. We will represent our own ideas in model making, art, music and dance.

## Amazing Creatures

Year R Term 6

### RE

In RE we will be exploring what makes places special to us and other people.

### PSED

In our PSHE sessions, we will be talking about how we have changed and how we can cope positively with changes in the future. We will be sharing how we feel about moving to Year One and talking about all the fun things we will be learning and doing in our new classes.

We will have opportunities to meet our new teachers too.

### PD

In PE we will develop our ability to roll, track, throw, catch and kick a ball. This will involve co-operating and persevering when a new skill may be difficult to master. Also. We will be learning some team games and the importance of working as a team to be successful.

### Music

Our theme is 'Reflect, rewind and replay' where we will be consolidating the learning that has occurred during the year. We will listen to different styles of music, thinking about how it makes us feel and learn new songs.
